OUR INDOOR LED DISPLAY SOLUTIONS

Add aesthetic value to your environment with indoor LED display boards and make your mark. Gravity brings customizable LED visuals to unique applications including boardrooms, control rooms, school halls, wedding venues etc.

Our flexible, lightweight, and energy efficient modules operate using the best technology the market has to offer. Using the highest quality LED components, offering stunning brightness, contrast and colour reproduction, finished with your choice of either copper or gold wire.

Better Performance in Display

High Contrast Ratio, Better Blending Effect in Color. Wider Viewing Angle Quality display performance. More audience, more profits.

High Reliability

Module of hollowed-out design is made for efficient heat dissipation to stand various severe weathers in outdoors. Fully waterproof module can stand the stormy weather in outdoors

Front & Rear Maintenance

Front & rear maintenance makes much easier operation in different applications

Save Cost

With ultra slim and light weight design, UsurfaceIII is easy to install by one person.

OUR INDOOR INTERACTIVE SCREENS SOLUTIONS

Interactive screens are designed to help people share information in a more creative and engaging way, including Ultra-HD 3840×2160 pixels with smooth and hard wearing anti-glare and a fast responsive touch experience. Two people can work on the screen at once thanks to the ten-point multi touch technology.

With our Interactive display solution you can write on the screen with your finger or pen and erase. The dual touchscreen can navigate through documents, videos, Presentations and websites with ease.

OUR INDOOR VIDEO WALL SOLUTIONS

Gravity offers a complete 360° approach to video wall solutions with installations in the fields of security control rooms, retail, broadcast and airports. You can rest assured that we will provide a world class solution to support your business and fit you budget.

Our complete portfolio of high-quality video walls encompass a wide range of different sizes, resolutions and technologies, of which have a thin bezel to provide a seamless experience.

Only 7.8kg for each panel

Light weight less than 7.8kg for each panel.

Low Cost of Splicing

With a perfect panel ratio of 16:9, LianTronics HD LED display could be easily spliced in consistent with frequently-used video proportion of 4:3 or 16:9, which could greatly reduce the splicing cost under the dual conditions of prescribed signal source and certain scene.

Support for Front Installation and Maintenance

Module, power supply, receiving card, conversion card, and cables between panels could all be maintained front.

OUR INDOOR INFORMATION KIOSK SOLUTIONS

Our Information Kiosks are a perfect touch screen solution to use as information points, advertising displays and entertainment in public areas or business premises.

Information kiosks offer stylish design and simple operation, helping your customers and visitors while reducing staffing costs. Our kiosks provide a bright, clear and crisp display and quick response touch screen.

Our products offer customers the flexibility and functionality they seek in today's sophisticated electronic assemblies.

Digital Kiosks Can Help Reduce Business Costs

A self-service kiosk will function as a substitute for an employee, freeing up money you would have otherwise spent on a salary and benefits package.

Requires Very Little Maintenance

Once you have placed the kiosks throughout your building, you will not have to think about their operation. Kiosks require very little maintenance and can run efficiently without any necessary attention.

Requires Very Little Maintenance

Digital kiosks collect data about your clients' actions that will allow you to improve the buying experience, advertise more effectively, provide better services, and increase your sales.

OUR DIGITAL MENU SOLUTIONS

Menu boards offer immediacy and choice while subtly reinforcing your branding. Content can be easily changed and customised depending on the location, time of day and audience. Digital menu boards are also easy to update and promote upselling, giving restaurants the competitive edge they need.

Promote Upselling

Digital menu boards represent a golden opportunity for prioritizing the up-sale technique. Digital screens have the capability of displaying complimentary items during the ordering process.

Easily Add New Menu Offerings or Adjust Pricing

Manage menu items and price points remotely based on supply and demand, promotional campaigns, and upcoming events.

Enhance Customer Experience

Digital menu displays can incorporate entertaining content to lower a customers perceived waiting time. It also gives restaurants the chance to present them with more promotional content.

Create Interest

Menu boards make menu items look more appetizing
